***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: the invention was restricted from Application 10/170,721, now US 6,737,550. It relates to rac-bicatulamide compound, which is synthesized in form of micronized particles. No prior arts of record disclose the instantly claimed processes. The closest art of Anne Juppo, WO 2002064121, discloses a surface-modified multiparticle formulation comprising a drug (e.g. rac-bicatulamide), a hydrophobic matrix former, non-swelling amphiphilic lipid and a hydrophilic matrix former. In the instant, applicant rac-bicatulamide is synthesized in particulate form without modification by adjuvants.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
